

Gang Prevention

Pleasant Grove Police Department presents the NOVA program to our 6th grade class.

Students participate in 10, one-hour, weekly lessons to learn about drug prevention, gangs, common gang identifiers, risky behaviors, gang's impact on family and community, how to avoid becoming gang involved, setting positive goals for their future, and how to get involved in positive alternative activities. At the end of the 10-week session, the students participate in a "graduation" and receive recognition.
